## Confirmation of book receipt

Dear Dr. Shachan,

On behalf of The National Library of Israel, I acknowledge with thanks the receipt of the publication "The Four Main Ancient Civilization Spring from the God of the Bible".

The National Library's collection is a comprehensive collection of all works published in Israel, as sending two copies of every publication is required by law. We also collect publications relating to Judaism and Jewish culture throughout the world. In this manner, all publications are preserved for the public and researchers for the present as well as future generations.

We are sure this publication will be a valuable addition to our library, and are honored to add it to our collection. We hope to receive copies of future publications by the Kobe Peace Research Institute, and wish you luck in your strive to increase peace and understanding, through bridging the gaps between cultures.

Sincerely,

David Hanegbi
